

## **peerVue, LLC Announces General Release of the peerVue Digital Structured Teaching File Solution**

BURLINGTON, VT (February 17, 2004) – peerVue, LLC announces the general release of the peerVue Digital Structured Teaching File Solution.

The peerVue solution, built on .NET technology streamlines the process of assembling, managing and exchanging teaching files. Institutions may purchase the enterprise version and locally host a dedicated caseNet-node for use by multiple users within their organization, or Individual users may purchase single peerVue client license and a subscription to the caseNet Teaching File Network.

The peerVue application includes a DICOM viewer, codification services using ICD-9, CPT & ACR Lexicons. Users may export teaching files to multiple media formats including Microsoft Word, PowerPoint, and Adobe PDF. The peerVue application may be used to publish teaching files to existing teaching file websites and; including powerful data mining, search and exchange functionality. The enterprise version integrates to standard based PACS and RIS; and is compatible with MIRC.

The peerVue application is available for immediate download from the company's website [www.peerVue.com](http://www.peerVue.com). A free 15-day trial is offered to those interested in solving their current teaching file management and exchange difficulties.

peerVue, LLC would like to thank Jay Crawford Manager of Radiology Informatics and Michael Brown, M.D., Chief Resident of the Medical University Medical Center for their participation and continuing support during the peerVue beta program.

Based in Charleston, SC, The Medical University of South Carolina (MUSC) is a state university with a medical center and six colleges for the education of a broad range of health professionals, biomedical scientists and other health related personnel. The 596-bed Medical Center is made up of four hospitals -- Medical University Hospital, MUSC Children's Hospital, Storm Eye Institute and the Institute of Psychiatry. It also includes centers for specialized care -- the Heart Center, Transplant Center, Digestive Disease Center and Hollings Cancer Center.

Throughout 2004, peerVue, LLC will continue to release announcements about new developments.

"We are thrilled to offer the most powerful and functionally rich teaching file solution available today," said Brian Batchelder, VP of Sales & Marketing, peerVue, LLC, "The interest and positive feedback we have received has fueled our efforts to deliver our vision; we are excited to be able to offer this cutting edge solution to the marketplace!"
